-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Allowable Subject Matter

1. Claims 1-22 are allowed over prior art.
2. The following is a statement of reasons for the indication of allowable subject matter: The claimed device (claims 1), method (claim 16) that includes a detection module/ determination step that detects contact between the latch pin and the magnetic latch when the disc drive is powered on for detecting a parking error is neither taught by nor an obvious variation of the art of record. The claimed device as set forth in claim 21 that includes a detection means that detects that the read/write head is parked when the disc drive is powered on is neither taught by nor an obvious variation of the art of record. This means is considered to include at least a detection module that detects contact between a magnetic latch and a latch pin as disclosed.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Anderson et al. (5,754,357) and Wasson et al. (US005495376A) teach latch arrangements related to the claimed invention.
4. This application is in condition for allowance except for the following formal matters:

The use of the term "such as" as presented throughout the claims is objected to under 37 CFR § 1.75(1) as not particularly pointing out and distinctly claiming the subject matter which applicant regards as the invention. See MPEP 2173.05(d). Examiner suggest to delete these limitations from the claims. Also claim 17 includes

Art Unit: 2651

the limitation “[see above]”, which is objected to as not particularly pointing out and distinctly claiming the subject matter which applicant regards as the invention.

Examiner suggests to cancel this feature from the claim.

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the claimed “detection module” must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either “Replacement Sheet” or “New Sheet” pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Art Unit: 2651

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
